One bite from an infected mosquito can mean weeks of fever and exhaustion, preventing children from going to school and adults from working to provide for their families.

WORLD MALARIA DAY

Monday, April 25th
JABSOM World Malaria Day
2016

Event Details:

Come join the Department of Tropical Medicine and the JABSOM Global Health Interest Group (GHIG) to learn more about malaria! Food & Drinks Will Be Provided!

We have some great activities lined up including: talks by guest speakers, malaria videos, microscope slides with malaria parasites, malaria bed nets to see/feel, and malaria rapid diagnostic testing!

Time: 5:30PM – 8:00PM

Place: JABSOM MEB BLDG. RM 314

Guest Speakers: Vernon E. Ansde ll, M.D. & Kevin Palmer, Ph.D.

Sponsored by: The Department of Tropical Medicine, Hi-ASM Student Chapter, and Research & Training in Neglected Tropical Diseases – #126-0070-4
