Dr. Scott Harvey: "It's not been studied before so we don't really understand what the trend is. But

0:00:56.730,0:01:00.030

that's the whole point of being able to review all these deaths. And from this

0:01:00.030,0:01:03.180

we've seen several from sepsis, we've seen several from high blood pressure,

0:01:03.180,0:01:08.310

and also anaphylactic reaction of pregnancy. So being able to establish the

0:01:08.310,0:01:11.280

trends and figure out what is the problem is the first step in order to

0:01:11.280,0:01:14.040

solve it. The unfortunate thing is a lot of the

0:01:14.040,0:01:18.990

maternal deaths that we've seen have had either a very minimal or no prenatal

care. Some didn't even know that they were pregnant."
