The Kakaʻako Health Sciences Executive Office directs activities, personnel, curricula, and research at the John A. Burns School of Medicine (JABSOM) and the University of Hawaiʻi Cancer Center (UHCC), as well as affiliated community hospitals and health and research centers. It is the direct liaison with the University of Hawaiʻi at Manoa offices of the Chancellor, the Vice Chancellor for Academic Affairs, the Vice Chancellor for Administration, Finance and Operations, and the Vice Chancellor for Research. It advises the JABSOM Executive Committee and the UHCC Senior Leadership Committee on the development and implementation of policies and procedures for the varied education, research, and administrative endeavors of the Kakaʻako Health Sciences campus, in accord with Legislative mandate, collective bargaining agreements, and University of Hawaiʻi policies. The office consists of the Dean of JABSOM, the Director of UHCC, the Chief Financial Officer, and the Public Information and UH Foundation Development Officers. Additionally, this office defines and directs operations and initiatives for JABSOM and UHCC administrative offices, and serves as the liaison between the Kakaʻako Health Sciences campus and the greater local, national and international community.

Advisory Groups to the Executive Office:

Operations Committee: The Operations Committee is responsible for recommending policies to the Executive Office and for serving as the liaison between the Executive Office and the faculty and staff by discussing all matters brought before it.

APPROVED:

______________________________________________
Robert Bley-Vroman, Chancellor                    Date
OFFICE OF THE DEAN – Org Code: MADNMD

The Office of the Dean directs activities, personnel, and curricula in the School of Medicine and affiliated community hospitals and health centers. It is responsible for the direct liaison with other Schools of the College of Health Sciences and Social Welfare, the Graduate Division, community colleges and community agencies for collaborative instruction, research and community service. It establishes policies with the Schools’ Executive Committee to develop and implement the academic programs and coordinate continuing medical education, conducts accredited graduate medical education programs in community hospitals, and is responsible for general program development in accord with Legislative mandate and University policies.

Advisory Groups to the Dean:

Executive Committee: The JABSOM Executive Committee is responsible for recommending policies to the Dean and for serving as the liaison between the Dean and the faculty by discussing all matters brought before it.

JABSOM Faculty Senate: The JABSOM Faculty Senate, which operates under separate bylaws, functions as a representative body of the JABSOM faculty. It obtains broadly based faculty input regarding affairs of JABSOM and makes recommendations to or advises the Dean and Executive Committee on all matters brought before it. The President and Vice President of the faculty senate are elected by members of the JABSOM senate and serve as members of the JABSOM Executive Committee.

APPROVED:

______________________________________________
Robert Bley-Vroman, Chancellor                    Date
OFFICE OF THE ASSOCIATE DEAN FOR ACADEMIC AFFAIRS – Org Code: MAADAA

The Office of the Associate Dean for Academic Affairs assists the Dean in overseeing all of the education operations at JABSOM. It is responsible for addressing strategic educational program development and alignment of JABSOM across all pre-clinical and clinical departments. It focuses on the continuum of education, including post-baccalaureate (Imi Ho’Ola) program, medical school, residency/fellowship, and post-graduation continuing medical educational formats, as well as the educational support services provided to students, residents and faculty. It is also responsible for working and mentoring faculty members from all departments regarding the unique JABSOM curriculum and the integration of their teaching effort through the JABSOM departments.

OFFICE OF FACULTY AFFAIRS – Org Code: MAOOG

The Office of Faculty Affairs is responsible for the coordination and administration of professional development services to JABSOM faculty.

Promotion and Tenure – Org Code: MAOOPT
The Promotion and Tenure Office provides guidance to JABSOM faculty on promotion and tenure procedures at JABSOM and UHM.

Educational Skills Development – Org Code: MAOESD
The Educational Skills Development office offers workshops and one-on-one advisement to faculty who seek to further refine their teaching skills at JABSOM.

GRADUATE MEDICAL EDUCATION – Org Code: MAOGME

The Graduate Medical Education Office, led by the Designated Institutional Official (DIO) of JABSOM, provides oversight and administration of Graduate Medical Education (GME) for all GME programs under JABSOM, in accordance with the Accreditation Council Graduate Medical Education. GME works with the JABSOM departments to train specialty and subspecialty physicians and develop environments in hospitals, clinics, and community settings in which patient care, health promotion, and academic excellence are sustained.
The Office of Continuing Medical Education is led by the Director for Continuing Medical Education (CME). The Office of CME oversees JABSOM sponsored CME functions and activities, in compliance with physician licensing and Liaison Committee on Medical Education (LCME) requirements. The Office collaborates with outside entities such as the Hawai’i Medical Association to advance life-long learning for health providers in Hawai’i.

APPROVED:

______________________________________________
Robert Bley-Vroman, Chancellor                    Date
The Allied Health Departments provide training and education for health care professions other than nursing or medicine (medical personnel), but are qualified by special training and/or licensure requirements. The Office of Global and International Health provides high-quality educational opportunities for medical students outside of the United States, where educational and licensure standards are different from country to country.

**DEPARTMENT OF MEDICAL TECHNOLOGY – Org Code: MAMEDT**

It is the goal of the Medical Technology Department to adequately develop appropriate numbers of skilled medical technologists to provide the best possible laboratory support for health care in the State of Hawai‘i and areas in the Pacific Basin. Specific objectives of this Department are: to graduate students with a B.S. degree in Medical Technology who are prepared to enter an American Medical Association approved School of Medical Technology for the additional professional education for national certification; to develop and implement mechanisms to expand enrollment in the medical technology program; to provide special programs on education for the academic and clinical faculty; to implement special retraining programs for persons reentering the field; and to develop a pathway to a Master’s level degree program for medical technologists.

**DEPARTMENT OF COMMUNICATION SCIENCES AND DISORDERS – Org Code: MACSD**

Objectives of the Communication Sciences and Disorders (CSD) Department are as follows: to provide pathway training for undergraduate (B.S. candidates & graduates) and degree training for graduate (M.S. candidates) students which will enable them to meet national certification standards and to work as fully qualified professionals in communication sciences & disorders; to provide a reservoir of trained personnel to meet the needs of the State in the area of habilitation and rehabilitation of those with speech and/or hearing disorders; and to help meet the requirements in this field in other areas of the United States and the entire Pacific area.

**OFFICE OF GLOBAL AND INTERNATIONAL HEALTH – Org Code: MAOGIH**

The Office of Global and International Health provides educational opportunities to learners from countries outside the United States, exposing these international students to the unique curricula of JABSOM, which includes gaining skills in a Problem-Based Learning (PBL)
environment and in navigating various clinical settings. The office liaises with medical schools and intuitions of higher learning throughout the world.

APPROVED:

______________________________________________  
Robert Bley-Vroman, Chancellor                    Date
The Educational Support units provide educational resources for medical and graduate students, faculty, and researchers at various stages of learning and professional development.

**ANATOMY LAB – Org Code: MAOOL**

The Anatomy Lab at JABSOM provides an opportunity for medical students to engage in medical learning through preserved cadavers, further deepening students’ understanding of the human body’s complex functions.

**KAKA‘AKO HEALTH SCIENCES LIBRARY – Org Code: MAKLMD**

The Kaka’ako Health Sciences Library serves as the sole UHM (on campus) medical library, providing information resources such as web-accessible materials and collections and a wide variety of print and electronic resources, primarily in the clinical sciences.

**SIMULATION CENTER – Org Code: MAOOSC**

The Simulation Center at JABSOM (also known as SimTiki) is the healthcare simulation based healthcare education center at JABSOM. SimTiki facilitates over 3000 simulation based training encounters annually. As a community resource, SimTiki serves broad training needs ranging from High School Students through Medical Students and Residents to specialist physicians, paramedics, nurses, and military personnel. International programs include sponsored in-residence research scholar positions and shorter term programs focused on faculty development and clinical skills.

APPROVED:

Robert Bley-Vroman, Chancellor

Date
THE OFFICE OF THE DIRECTOR OF UNDERGRADUATE MEDICAL EDUCATION
– Org Code: MAADMD

The Office of Undergraduate Medical Education assists the Associate Dean for Academic Affairs in overseeing all of the medical student education operations at JABSOM. It is responsible for addressing strategic educational program development and alignment of JABSOM across all pre-clinical and clinical departments. It focuses on the continuum of medical student education, including the post-baccalaureate (Imi Ho’Ola) “pipeline” program.

OFFICE OF ADMISSIONS – Org Code: MAOAMD

This Office directs the admissions functions for the School and provides support in the maintenance of application and academic records to insure compliance with confidentiality and privacy requirements.

IMI HO’OLA PROGRAM – Org Code: MAIHP

The Imi Ho’ola Program (IHP) is a post-baccalaureate program designed to provide educational opportunities for individuals whose medical school applications were rejected, but who are deemed capable of succeeding in medical school. The curriculum emphasizes the integration of concepts and principles in the sciences and humanities, and further develops communication and learning skills. Persons benefiting come from an environment that has inhibited the individual from obtaining the knowledge, skills, and abilities required to enroll in and graduate from medical school and/or comes from a family with an annual income below a level based on low-income thresholds as published by the U.S. Bureau of Census.

OFFICE OF STUDENT AFFAIRS – Org Code: MASSMD

The Office of Student Affairs represents a major academic support program that serves as a resource in promoting the individual and professional growth and development of our students. The Office coordinates student services and activities which afford students the opportunity to explore ways to enhance or address the entire student experience, including:

- Educational student advising & counseling;
- Registration;
- Financial aid, in close collaboration with UH Mānoa Financial Aid Office;
• Support to the Student Standing and Promotion Committee;
• Support to Student Evaluation by Review and Remediation Committee;
• Maintenance of past and current student records; and
• Student life to career planning.

The Office works with students to develop innovative solutions to issues or concerns by serving as the liaison for students to services, administrative offices, and information throughout their tenure at JABSOM.

**OFFICE OF MEDICAL EDUCATION – Org Code: MAMSMD**

The Office of Medical Student Education is responsible for the coordination and administration of the educational programs leading to the M.D. degree, working with the Office of Faculty Affairs for the conduct of faculty development programs, and the quantity and quality of faculty participation in our problem-based learning curriculum.

**Center for Clinical Skills – Org Code: MACCMD**

The Center for Clinical Skills is responsible for the provision of standardized patient training for core educational activities in the required curricular unit for the first two years of medical school; clinical skills evaluation for three of the six required third year clinical rotations in pediatrics, internal medicine, and family medicine; and the required fourth year geriatrics rotation. This includes training for a comprehensive clinical examination that is a JABSOM graduation requirement and providing testing for the School of Nursing and the Uniform Services University of the Health Sciences at Tripler Army Medical Center.

**APPROVED:**

Robert Bley-Vroman, Chancellor

__________
Date
OFFICE OF FUNDAMENTALS OF HEALTH SCIENCE – Org Code: MARSMD

Fundamentals of Health Sciences departments provide education for a number of related and unrelated health care professions other than nursing or medicine (medical personnel). These departments represent the basic sciences required to help medical students better understand the root causes of a disease; to analyze how current treatments work, their viability and sustainability; and to develop potential new therapies and practices. It involves basic scientific research that can form the foundation for important breakthroughs in medical treatments and diagnostic technologies.

DEPARTMENT OF ANATOMY, BIOCHEMISTRY, AND PHYSIOLOGY – Org Code: MAABPM

The Department provides medical students with a basic understanding of the structure of the human body at all levels of organization from the subcellular level through tissues, organs, and gross relationships of organ systems. It also provides undergraduate level instruction in anatomy for paramedical and biological science programs. It maintains a strong group of teacher-researchers to provide consultation and expertise in anatomy and reproductive biology, to instruct medical students, residents and clinicians and for the contribution of basic research to problems of population control.

The Department also provides training in Biochemistry-Biophysics for a large number of undergraduate, graduate, post doctorate, and continuing education students. Besides the various A.B., B.S., Ph.D., and M.D. candidates, this Department provides advanced training for Medical Technologists already working in the field or recent graduates of the medical technology program. It provides instructional services in physiology to undergraduate, graduate and medical students; trains graduate students toward M.S. and Ph.D. degrees in physiology; engages in both basic and applied research in Physiology; and renders services as needed by the local, national and international communities. Our faculty is on the forefront of investigative programs dealing with the care, treatment, and cure of cancer, cardiovascular abnormalities, nutritional and metabolic disturbances, energy metabolism, and enzymatic mechanisms.

Institute for Biogenesis Research – Org Code: MAIBGS
The Institute of Biogenesis Research was established in May 2000 for the study of reproductive and developmental biology and to support the academic pursuit of research in these fields.
The Department provides quality graduate education in genetics for all qualified students and provides undergraduate instruction in genetics as a service to the University at large. Certain major areas of research concentration can be identified as follows: human genetics, evolutionary genetics, cell and developmental genetics.

Interaction with community groups occurs in several areas: the Medical Genetic Services Program, Hawai‘i Heart Association Research Committee, Board of Directors of The Bernice Pauahi Bishop Museum, the Nature Conservancy, as well as other organizations concerned with environmental and conservation biology.

DEPARTMENT OF TROPICAL MEDICINE, MEDICAL MICROBIOLOGY, AND PHARMACOLOGY – Org Code: MATMPM

The Department works toward increasing comprehension and the ability to apply techniques of medical microbiology, infectious diseases, tropical medicine, and public health laboratory in the target populations: medical students, public health students, medical technology students, and graduate students in tropical medicine, biology, and public health.

Teaching efforts in pharmacology are directed toward first and second-year medical students, graduate students, and pre-med, pre-nursing, food and nutritional science, sports medicine and dental hygiene students. Along with teaching, the Department regards research as an indispensable activity since the latter is intimately intertwined with the teaching and training of students.

Development of a program addressing the linkages between environmental and human health will directly benefit ecological and human health in Hawai‘i and the Pacific region, will complement the biomedical research component of the School of Medicine’s vision, will have both direct and indirect economic benefits, and will generate research results applicable to addressing environmental and human health problems worldwide.

Office of Biostatistics and Quantitative Health Sciences – Org Code: MABQHS

The Office of Biostatistics and Quantitative Health Sciences was established in 2011 to provide biostatistical and quantitative health collaboration and research support to basic science, clinical, and translational investigators. The office specializes in study design and data analysis, participates in grant proposal development, conducts methodology research, and provides education in biostatistics and other quantitative health areas.

GRADUATE PROGRAMS (WASC) – Org Code: MAOOGP

The Graduate Programs office ensures that all graduate programs administered through JABSOM are in compliance with the Accrediting Commission for Schools Western Association of Schools and Colleges.
FUNCTIONAL STATEMENT (Chart IV)

OFFICE OF CLINICAL SCIENCES DEPARTMENTS – Org Code: MACSMD

The Clinical Sciences departments include the areas of practical study of medical principles or investigations using controlled procedures to evaluate results. These often deal with physical therapeutic sciences, medical sciences, and other sciences applied to physical therapy practice. These departments comprise of contributions of scientific disciplines to health promotion and the prevention, diagnosis, and treatment of disease through research, teaching, and clinical care delivery.

DEPARTMENT OF MEDICINE – Org Code: MAMED

The ultimate goal of the Department of Medicine is to improve health care through service, education and research in the clinical sciences, more specifically in the field of internal medicine and its recognized subspecialties which are directly and primarily concerned with patients. Target groups involved are medical students, allied health students and professionals, house officers in affiliated hospitals, and practicing physicians.

Center for Cardiovascular Research – Org Code: MACCR

The Center for Cardiovascular Research uses transgenic and molecular methods to improve the understanding of cardiovascular biology and to inform new therapeutic approaches with the following primary aims:

- The development of a strong mentoring group of established investigators with interdisciplinary but complementary backgrounds in vascular and cardiovascular biology, to support the career growth of a select group of young investigators.
- The development of a strategic plan to assist in the recruitment and retention of talented and funded young faculty and established investigators in faculty positions in order to promote the continued growth of a cardiovascular research program into a major research discipline with stable funding opportunities to not only parallel but to eventually replace COBRE funding.

Magnetic Resonance Imaging Center – Org Code: MAMRIC

The Magnetic Resonance Imaging (MRI) Center conducts NIH-funded research in some of the following areas: brain activation in patients with early HIV dementia, early brain development after prenatal “ice” exposure, creating a pediatric imaging neurocognition and genomics data resource, neuroimaging to assess the effects of therapy in children with acute lymphoblastic leukemia, impact of marijuana exposure on brain maturation,
parallel MRI for high field neuroimaging, spectral spatial RF pulses for gradient echo fMRI, and factors for enhanced neurotoxicity in methamphetamine abuse and HIV infection.

Hawai‘i Center for AIDS Research – Org Code: MAHCAR
The Center provides a vehicle for scientific study and policy development related to HIV-AIDS in Hawai‘i, as well as Asia and the Pacific. Research involves studying HIV’s effect on metabolism and its role in neurological and cardiovascular conditions.

DEPARTMENT OF OBSTETRICS, GYNECOLOGY, AND WOMEN'S HEALTH – Org Code: MAOBGN
The Department of OB/GYN and Women’s Health trains medical students and paramedical personnel in the various aspects of Obstetrics, Gynecology, and Women’s Health, including: human female reproductive biology and endocrinology, basic pelvic examination, performing a routine delivery, disorders of the female reproductive system, family planning and human sexuality, correlation between various disease processes, and the pathology of the reproductive organs. Also develops seminars and training programs for the practicing physician.

DEPARTMENT OF PATHOLOGY – Org Code: MAPATH
The Department of Pathology provides instruction for medical students in basic, systematic, and clinical pathology, which bridges the basic sciences with clinical medicine. It also makes available specialized topics in pathology to third- and fourth-year medical students, graduate students, and residents in pathology, as well as integrates and instructs pathology at the community hospitals. The University’s involvement in community hospitals allows this Department to improve the postdoctoral residency program for training of specialists in pathology.

DEPARTMENT OF PEDIATRICS – Org Code: MAPED
The Department of Pediatrics is committed to providing a comprehensive program of training, service, and research in the field of pediatrics. Departmental responsibilities for pediatric teaching involve multiple levels from first year medical students to post-residency trainees, both physician and allied health personnel.

Pediatric training must encompass all aspects of child life and health. The basic philosophy of the pediatric teaching program is that every person in the medical and paramedical profession should have an understanding of the dynamic nature of growth and development from conception to maturity.

Teaching of medical students at all four levels must cover a number of subspecialty areas in order to provide a basic and comprehensive training in pediatrics. The Department provides post-medical specialty training through the University of Hawai‘i pediatric integrated residency program. Fellowship training in neonatology and adolescent medicine is offered to physicians.
having completed their basic pediatric graduate training. Additionally, this Department is responsible for the Pediatric Intensive Care Unit, Neonatal Intensive Care Unit, and Pediatric Emergency Care located at the Kapi’olani Medical Center for Women and Children, and provides secretarial services to maintain departmental operations.

**DEPARTMENT OF PSYCHIATRY – Org Code: MAPSTY**

The Department of Psychiatry provides psychiatric teaching and training to medical students, residents in General Psychiatry, Child and Adolescent Psychiatry, and Geriatric Psychiatry. It also provides inpatient and outpatient psychiatric services and consultation at the following sites: The Queen’s Medical Center, Kapi’olani Medical Center for Women and Children, Hawai’i State Hospital, and community mental health centers on the islands of Hawai‘i, Molokai, Maui, Kauai, and Lanai.

The Department conducts research in various aspects of psychiatry: culture and mental health of different ethnic groups, mental health epidemiology of Native Hawai‘ian adolescents, substance abuse, severe mental illness, neuropsychiatry, and psychopharmacology.

Members of the Department contribute service to the community on both the state and national levels. They include such activities as members and officers of NIMH Review Committees, the Hawai‘i Psychiatric Society, and the Hawai‘i Council of Child Psychiatry. Members of the Department also provide consultations to schools and speakers for PTA groups and other healthcare and community organizations.

**DEPARTMENT OF SURGERY – Org Code: MASURG**

Surgery is the branch of medicine that deals with the treatment of disease, injury or deformity with manual or instrumental operations. The Department of Surgery provides instruction and training to medical students in both general surgery and the subspecialties and includes etiology, diagnosis, pre- and post-operative care, surgical techniques and research. Facilities and resources are available to support clinical research in a variety of fields. The Department directs a general surgery residency program, an orthopedic residency program, and a surgical critical care fellowship program. It conducts and participates in continuing medical education programs for physicians and other health professionals. The program utilizes a large and varied faculty of general and specialty surgeons, as well as numerous local medical centers, giving students and residents ample exposure to surgical disease and therapy.

**Hyperbaric Treatment Center – Org Code: MAHYTC**

The Hyperbaric Treatment Center of the John A. Burns School of Medicine is the only hyperbaric center in Hawai‘i accredited by the Undersea and Hyperbaric Medical Society. The Center is among the nation’s most active dive accident treatment facilities for recreational divers, serving the entire chain of Hawai‘ian Islands, 24 hours a day. The Center is a clinic which provides very specialized care and services. The facility is located in Honolulu at the Kuakini Medical Center. In addition to treating recreational divers, Center physicians treat patients who have medical conditions helped by hyperbaric oxygen therapy, such as tissue damage from irradiation treatment, non-healing...
problem wounds, and carbon monoxide intoxication. The facility actively conducts clinical research and provides teaching to medical residents and students.

DEPARTMENT OF NATIVE HAWAI’IAN HEALTH – Org Code: MANHH

The Department of Native Hawai’ian Health (NHH) is concerned with the healthcare of Native Hawai’ians. Through research and education, this Department helps to develop a comprehensive program that addresses the healthcare status of Native Hawai’ians. JABSOM will provide assistance in educating the community on health issues of Native Hawai’ians. This Department will also house two (2) divisions related to Native Hawai’ian health and welfare – the Imi Ho’ola Program and the Native Hawai’ian Center of Excellence.

Native Hawai’ian Center of Excellence – Org Code: MANHCE
The Native Hawai’ian Center of Excellence (NHC) seeks to improve the healthcare status of the Hawai’ian community through educational initiatives. This program will train academic faculty of Hawai’ian descent, as well as develop a domestic violence prevention initiative and other programs designed to educate Hawai`i and Hawai’ians about the richness of their medical heritage.

The Center for Native and Pacific Health Disparities and Research – Org Code: MANPHD
This Center supports biomedical and behavioral research on Cardiometabolic Health Disparities in priority populations of Native Hawai’ians, Pacific Peoples, Filipinos and other Pacific-based Native Peoples (Alaska Natives, New Zealand Maori).

DEPARTMENT OF GERIATRIC MEDICINE – Org Code: MAGERI

The Department of Geriatric Medicine provides the instruction, research, and community service activities in geriatric medicine for medical students, residents, fellows, and other health care workers. It has a nationally known, accredited post residency geriatric fellowship program. In addition to an active educational program that serves fellows, internal medicine residents, and medical students, the program is also very productive in biomedical research. Given the fact that Hawai’i is an aging State with one of the longest life expectancies in the nation, the presence of a locus of expertise and experience in the care of geriatric patients and in research on geriatric diseases is an important component of the State’s healthcare community.

AREA HEALTH EDUCATION CENTER – Org Code: MAAHMD

The Hawai`i/Pacific Basin AHEC seeks to improve the health of the underserved through education. There are four main activity areas: educating and recruiting students to health professions from K-12 schools; educating health professions students in the rural and underserved communities of Hawai`i, often in multi-professional teams; recruiting health care professionals to rural and underserved areas and providing continuing education; and providing community based and community driven education for all underserved groups in Hawai`i.
DEPARTMENT OF FAMILY MEDICINE AND COMMUNITY HEALTH – Org Code: MAFMCH

The Department provides health care characterized by the combination of delivery of first contact health services, the assumption of continuing responsibility for patients regardless of the presence or absence of illness, and the integration of care for their physical, psychological, and social health. Long range objectives for the Department are as follows: to increase access to primary care in Hawai‘i and greater Pacific; to train all medical students to a maximum level of competence as primary care physicians; to provide postgraduate training for students in any of the medical specialties; and to provide a realistic view of primary care medicine as a career.

DEPARTMENT OF COMPLEMENTARY AND INTEGRATIVE MEDICINE – Org Code: MACAAM

The Department of Complementary and Integrative Medicine is responsible for the development and dissemination of alternative medical therapy, as well as the investigation and research of the scientific foundation of these techniques. The medical traditions of many of the cultures represented in Hawai‘i have endured for centuries and have given solace and comfort to millions through the ages. It is only now that Western medicine is beginning to investigate the scientific foundation of many of these techniques, but much still remains to be learned. There is a great dearth of credible scientific information available to guide patients in the choice of appropriate alternative therapies. This has become a major public health issue as recognized by the National Institutes of Health. Hawai‘i has a well-established community of alternative medicine practitioners and a number of resident experts in the integration of western complementary therapies. Given Hawai‘i’s unique environment and population, JABSOM can become a world leader in the scientific investigation of alternative therapies, providing insights into the potential application and pitfalls of these techniques.

APPROVED:

______________________________________________
Robert Bley-Vroman, Chancellor                    Date
UNIVERSITY OF HAWAI‘I CANCER CENTER – Org Code: MACRCH

The University of Hawai‘i Cancer Center (UHCC) focuses on key cancers that impact Hawai‘i, contributing to a global body of knowledge that leads to the development of new treatments and therapies. UHCC engages in scientific collaborations on an international scale, from clinical trials conducted across the U.S. to partnership programs in Guam, Micronesia and the Pacific.

The UHCC is one of only 69 research organizations in the country designated by the National Cancer Institute (NCI).

The UHCC, together with its clinical partners, The Queen’s Medical Center, Hawai‘i Pacific Health, Kuakini Medical Center and JABSOM form the UH Cancer Consortium, an alliance of the state’s leading healthcare organizations united in our common goal of eliminating cancer through science in Hawai‘i and greater Pacific.

Advisory Groups to the UHCC:

Senior Leadership Committee: The Senior Leadership Committee advises the Director on matters pertaining to the UHCC and its operations.

Faculty Senate: The Faculty Senate, which operates under separate bylaws, functions as a representative body of faculty.

External Advisory Committee: The External Advisory Committee reviews the research and administrative operations of UHCC as required for NCI designation and makes recommendations as necessary.

UHCC ORGANIZED RESEARCH UNIT – Org Code: MACORU

The UHCC Organized Research Unit encompasses the three primary sections that contribute to the research work of the UHCC.

Cancer Programs
The function of the various cancer programs is to develop new strategies for discovery, drive findings into clinical practice and deliver the optimal outcome for people faced with the prospect of treatment and recovery. The programs conduct research on the causes,
prevention, and treatment of cancer across a broad array of disciplines that includes cancer biology, natural products and experimental therapeutics, cancer epidemiology, molecular carcinogenesis, cancer prevention and control methods, quality of life in cancer survivors, new therapeutic approaches to cancer treatment, and community-based interventions. The main goal is to reduce the burden of cancer through research, education and clinical research. The emphasis is to understand and eliminate the causes of health disparities in cancer among the unique and diverse ethnic, cultural and environmental characteristics of Hawai‘i and the Pacific.

Clinical and Translational Research Services
The Clinical and Translational Research Services (CTRS) generate innovative, high impact clinical research to eliminate cancer and the suffering it causes to the people of Hawai‘i. Its objectives are:

1. To develop novel cancer diagnostics and cancer therapeutics; and
2. To translate research findings from the basic science labs into research with human subjects;
3. To oversee and to initiate new impactful clinical trials in Hawai‘i that will lead to practice changing interventions in cancer therapeutics, diagnostics and prevention.

CTRS collaborates with the health care community. This collaboration represents the unified basic, translational, and clinical cancer research efforts benefiting people of Hawai‘i and the Pacific Basin

Shared Resources
The UHCC supports a variety of state-of-the-art core facilities that provide services to facilitate basic and translational research programs. The goal is to provide cutting-edge technology to the scientific community while operating in a timely and cost-efficient manner. These shared resources are in the areas of analytical biochemistry, biostatistics and informatics, clinical & translational services, genomics, microscopy, imaging and flow cytometry, nutrition support and pathology.

APPROVED:

FUNCTIONAL STATEMENT (Chart VII)

ADMINISTRATIVE SERVICES KAKAʻAKO

Administrative Services Kakaʻako provides leadership and management over administrative functions, services, and operations for all of JABSOM and UHCC in the functional areas of budget, finance and administration, human resources, communications, grants administration, facilities, information technology, and risk and clinical business affairs. This office assists the Kakaʻako Health Sciences Executive Office in overseeing all financial operations and the day-to-day administration of JABSOM and the UHCC. Finally, this office works under the direction of the Executive Office to prepare and monitor budgets, develop long- and short-range strategic and business plans to enhance revenue, develop compensation research and teaching incentive plans, provide overall property and space management, and serves as JABSOM’s financial liaison to the school’s affiliated non-profit organizations (i.e. UCERA, UH Cancer Consortium, Kapiʻolani Medical Specialists, Hawaiʻi Residency Programs).

OFFICE OF CENTRAL FISCAL AND HUMAN RESOURCES – Org Code: MAFAMD

The Office of Central Fiscal and Human Resources approves and controls expenditures, initiates, oversees, and tracks all personnel transactions, acquires and monitors all equipment and property assigned to JABSOM and UHCC, procures and pays for all supplies needed for JABSOM’s and UHCC’s operations. The office also prepares periodic financial and other management reports to support the JABSOM Dean/Associate Deans and UHCC Director in the management of JABSOM and UHCC operations. The Office also assists in the implementation and administration of research and training contracts and grants. Finally, OFAA is responsible for developing appropriate accounting systems for analyzing and reporting data generated by those systems.

Office of Human Resources – Org Code: MAHRMD

The Office of Human Resources provides human resources management for all personnel matters within JABSOM and UHCC.

OFFICE OF GRANTS ADMINISTRATION – Org Code: MAOGDO

The Office of Grants Administration was established in 2003 to facilitate the grants preparation and submittal process. The office works in close collaboration with the Executive Office, the Fiscal Office and the Office of Research Services. The office is responsible for designing and administering effective procedural systems that help increase the probability of award success. The office reviews proposals, collaborative agreements, and financial and personnel
requirements, and assists with budget preparation and ensures all requirements are met prior to actual implementation.

**OFFICE OF RISK AND CLINICAL AFFAIRS – Org Code: MAEXMD**

The Office of Risk and Clinical Affairs (ORCA) is responsible for developing, managing, and monitoring contracts and relationships with JABSOM’s and UHCC’s affiliated hospitals, affiliated non-profit organizations, State agencies and business partners. The hospitals affiliated with JABSOM indirectly provide over twenty-five percent (25%) of the School’s annual all funds operating budget and thus are of crucial importance to the School’s education and research programs.

In addition, JABSOM leases large amounts of space from the hospitals to state clinical education and research. Managing relationships and developing partnerships with the hospitals is one of the most important facets of JABSOM’s operations.

**OFFICE OF COMMUNICATIONS, MEDIA, AND GOVERNMENT – Org Code: MACOMM**

The Office of Communications, Media, and Government is responsible for providing Kaka‘ako Health Sciences information updates, and for the generation and dissemination of news items of value to JABSOM, UHCC, and the community. The office also interacts with the Hawai‘i State Legislature on issues pertinent to JABSOM and UHCC.

**OFFICE OF INTERACTIVE MEDIA SERVICES – Org Code: MAINMS**

The Office of Interactive Media Services combines media, information, communication and technology with all areas of administration, research, and education. The office focuses on the application of technology and new opportunities to improve education and administrative processes. Specific areas which the office services include graphics, web design, programming for web content, presentation, multimedia applications, educational and instructional product development, and collaborative technologies to support the mission of JABSOM and UHCC.

**OFFICE OF INFORMATION TECHNOLOGY – Org Code: MAITMD**

The Office of Information Technology provides quality informatics resources in support of the administrative, education, research and service functions of JABSOM and UHCC. Its target services and functions include the following: network infrastructure, electronic communication, workplace networking, audio/visual and graphic design, website management, and bioinformatics resources.

**OFFICE OF SPECIAL EVENTS AND CAFÉ – Org Code: MASECM**

This office liaises with the community by providing informational tours for visitors to JABSOM and the UHCC, and providing the community opportunities to use JABSOM and UHCC.
facilities as a space to hold special events. The office is also responsible for the management of the café located at JABSOM.

**OFFICE OF BUDGET, SURVEYS, AND REPORTING ANALYST – Org Code: MABFMD**

This office provides leadership and guidance to administration in managing the School’s departmental budgets and coordinates the preparation of the Graduate Medical Education (GME) operating budget.

This office also provides for the financial reporting needs of JABSOM and UHCC and completes various metric surveys to the School’s accrediting agency, the Association of American Medical Colleges (AAMC) and the State Legislature.

**APPROVED:**

______________________________________________
Robert Bley-Vroman, Chancellor                    Date
OFFICE OF FACILITIES MANAGEMENT AND PLANNING – Org Code: MAFMMD

The Office of Facilities Management and Planning is responsible for the management of buildings and corrective, preventive and predictive maintenance services. This includes plant operations, building air conditioning operations, capital projects, construction management and monitoring of contractors’ performance, landscaping, janitorial services, security and research building health and safety certification, and environmental health and safety services to the entire Kaka’ako Campus.
