Research

John A. Burns School of Medicine
University of Hawai‘i at Mānoa

Department of Communication Sciences and Disorders
677 Ala Moana Blvd, Suite 625,
Speech and Hearing Clinic
Honolulu, HI 96813
Ongoing projects:

Locally: Collaboration with the Hawaii Concussion Awareness and Management Program (HCAMP) to study prevalence, incidence, and knowledge of concussion in student athletes and surfers.
Web site: https://www.hawaiiconcussion.com/

Nationally: Collaboration with Chronic Effects of Neurotrauma Consortium (CENC) to study the long-term effects of mild traumatic brain injury in military service personnel and veterans.
Web site: https://www.cencstudy.org/

Internationally: Collaboration with Taipei Medical University and National Taiwan University to study the clinical applications of ultrasound for better diagnosis and treatment in musculoskeletal injuries.
