JABSOM Willed Body Program puts acceptance of donated bodies on pause.

Due to the COVID-19 pandemic, the Willed Body Program of the John A. Burns School of Medicine will temporarily stop accepting body donations from September 14th, 2020, until further notice. We wholeheartedly apologize for any inconvenience that this may cause.

We urge donors and/or their loved ones to look for alternative arrangements at this time. If a donor passes away during this period of closure, we ask that the donor's loved ones or other appropriate individual(s) kindly notify us so that we may update our database. Thank you for your understanding.
