

## JABSOM LumiSight UH Reminders as of 8-21-21

Aloha everyone,

By now, we hope that you have seen the numerous notices and reminders regarding uploading your information into LumiSight UH and doing the daily screening which will be enforced starting Monday, August 23, 2021. **Please note the [UH COVID-19 Vaccination and Testing Policy](#) applies to ALL students, employees (UH, RCUH, UHF, UHP), visitors, and contractors that come onto the Kaka'ako campus.** *We strongly recommend that all RCUH, UHF, UHP, visitors and contractors sign up for a LumiSight UH guest account, as that will keep a record of all check-ins, vaccination, and testing history.*

[LumiSight UH](#) has several functions to help keep us safe: daily self-screening for symptoms and exposures AND verification of vaccination or a negative PCR test within 7 days. The daily clearance "status" will interface with Banner, STAR, and Lulima (for students), so that faculty can easily determine who is cleared or not cleared to be on campus. Additional information will be forthcoming for employees and supervisors. RCUH employees should utilize LumiSight UH when they come to campus AND also follow the instructions sent on [August 19, 2021](#).

**The web version of LumiSight UH is now able to upload** negative PCR test results if you are unvaccinated. The device apps are pending approval from Apple and Google. Once those are approved, there will be a notice sent by the UH System.

**For daily clearance and allowance onto any UH campus, class, program or in-person service, you need to have both items #1 and #2 (2a OR 2b) done.**

- 1. The health symptom (and exposure) completed and negative
- 2a. Your vaccination card and information (which is validated against the State records) OR
- 2b. A negative PCR test dated within 7 days from the date you are checking in.

**For those coming to JABSOM, and especially during the peak arrival times of 7:30-8:30 am, please do the following to help speed up your daily check-in process:**

1. Do your LumiSight UH check-in at home (as you should not be coming to work if you have symptoms) <https://uh.campus.lumisight.com/home>
2. Do your LumiSight UH check-in **before you enter the building**
3. Until the app is available, have the [LumiSight UH webpage](#) open on your browser (on your smart phone or portable device).
4. Show your LumiSight UH clearance status to the security guards, then head to your destination.
5. Be aware that your instructor or supervisor may also ask to see your clearance should any concerns arise.

Chief Black of UHM Department of Public Safety has informed us that the usual staffing of DPS Officers at the MEB and BSB desks will continue. So, please be prepared, be patient, and be kind to each other. We greatly appreciate their assistance in keeping all of us safe.

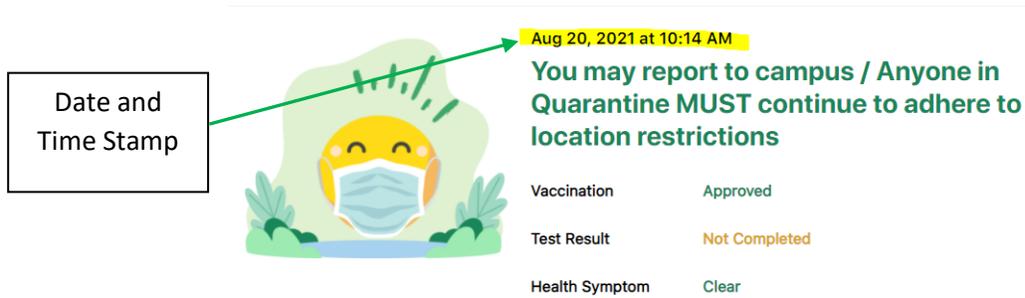

If you do not want to upload your vaccination card (or test result) to LumiSight UH, then you must bring a hard copy of your card, or another proof of vaccination (or test result) and show that document to security, *in addition* to your LumiSight UH status page that shows a Health symptom **Clear** (see first image on the next page). Other acceptable forms of vaccine documentation include an official print out of the vaccination record from the [place you originally received your vaccine](#).

If you do not have a smart phone/device, you have several options:

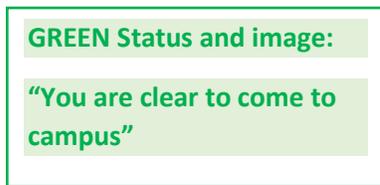

1. Complete a paper LumiSight UH form EVERY DAY that you come to JABSOM. Those are at the security desk. AND bring the hard copy of your vaccination card/proof of vaccination (or test result).

## JABSOM LumiSight UH Reminders as of 8-21-21

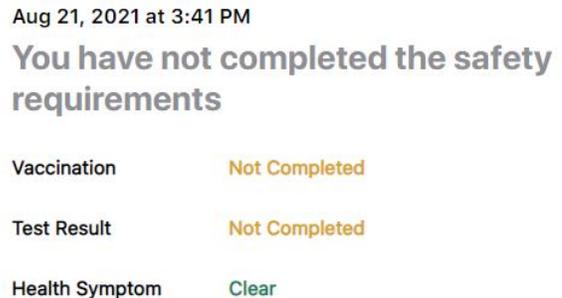

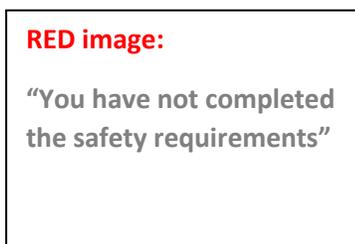

- If you have a printer, print the DATE and TIME-STAMPED page and show it to the security guard (or to your faculty or supervisor, if asked).

If you have completed BOTH your health symptom/exposure screen AND have an uploaded/approved vaccination card [or a negative PCR test result dated within the last 7 days if you do not have a vaccination card uploaded], your screen will look like the picture below:

**If you are missing a step**, the display will look like the picture below and you will need to show hard copy proof of vaccination or negative PCR test dated within 7 days. **If you do not have the hard copy, you will not be allowed on campus.**

**If you checked YES on your health symptom screen**, you should stay home OR you will be asked to leave the campus. Please notify your supervisor, instructor, or event organizer.

**If you checked YES because you were exposed and you are unvaccinated**, contact your supervisor and either Drs. Buenconsejo-Lum or Omori right away. Do not enter the campus.
